

# GEOTECHNICAL ENGINEERING

VOLUME 22 NUMBER 2 DECEMBER 1991

	Page
<b>Photographic Feature :</b>	
Pullout test apparatus at AIT soil laboratory D.T. BERGADO and M.C. ALFARO .....	119
<b>Papers:</b>	
<b>Triaxial tension tests on compacted kaolin</b> E.K. BERDIE .....	121
<b>The granular pile: its present present state and future prospects for improvement of soft Bangkok clay</b> D.T. BERGADO, M.C. ALFARO and J.C. CHAI .....	143
<b>Construction of a deep slurry trench cut-off wall, Harris dam, Western Australia</b> S.J. BRICE and C.F. SWINDELLS .....	177
<b>Behavior of single pile in expansive clay</b> P.K. CHALLA and H.G. POULOS .....	189
<b>Technical Notes:</b>	
<b>Estimating uplift of foundation due to expansion: a case history</b> A.A. BASMA .....	217
<b>Some deformation characteristics of collapsible soils</b> M.A. EL-SOBY and S.A. RABBAA .....	233
<b>Variation in differential pore water pressure and particle size at different constant rate of loading in an automated consolidation testing system</b> U.N. SINHA and S.N. BHARGAVA .....	247
<b>Analysis of soil behavior during excavation of shallow tunnel</b> M. VAFABIAN .....	257
<b>Errata</b> .....	269
<b>Conference News</b> .....	271
<b>Announcements</b> .....	273
<b>SI Units and Symbols</b> .....	274
