

GEOTECHNICAL ENGINEERING

Vol. 30, No. 1, April 1999

CONTENTS

Photographic Feature:

Application of Mechanically-Stabilized Earth (MSE)

by *D.T. Bergado*

i

Main Papers:

Swelling and Compressibility Characteristics of Compacted Sand-Bentonite Mixtures

by *H.A. Alawaji*

1

Pile Bearing Capacity Determination by High-Strain Stress Wave Methods

by *J-X. Yuan, J-H. Yin and M-G. Liu*

13

Analysis of Pile Subjected to Cyclic Lateral Loading

by *V.A. Sawant and D.M. Dewaikar*

25

Using Geotechnical Database for Modelling Spatial Variability of Soil Properties

by *X-X. Li and S. Hayashi*

41

Technical Note:

Liquefaction Resistance of Volcanic Soil from Mount Pinatubo in the Philippines

by *S. Shibuya, S. Yamashita and D. Widiyanto*

59
