

CHALLENGES IN NORDIC GEOTECHNICS

We welcome you to **THE 17th NORDIC GEOTECHNICAL MEETING** 25-28 May 2016

The aim of the conference is to strengthen the relationships between practicing engineers, researchers and scientists within the fields of geotechnics, geotechnical engineering and engineering geology with special emphasis on the Nordic region.

All are invited to share their experience and knowledge with their Nordic colleagues.

The conference will be held in **Harpa**, the Concert Hall and Conference Centre in the heart of Reykjavík, Iceland

The Conference

- Plenum sessions, invited speakers
- Special chosen lectures
- General lectures
- Poster sessions
- Exhibition

Language

Articles are preferred in English but Nordic languages are accepted (Norwegian, Swedish and Danish). All presentations, including Power Point and speech, must be in English.

Conference Themes

- Innovation in Geotechnical Engineering
- Investigation, testing and monitoring
- Modelling, analysis and design
- Geotechnical structures and infrastructure
- Foundations and deep excavations
- Underground infrastructures
- Environmental geotechnics
- Geotechnical implications of climate change
- Geohazards and slope stability
- Geotechnical earthquake engineering
- Geotechnical codes and standards
- Transportation geotechnics and geophysics

Call for Papers - Abstracts

We invite you to submit an abstract(s), no more than 300 words for review. Abstracts must be submitted online before June 1st 2015.
