

Young Huy Lee on Research Sabbatical at AIT

Professor Young Huy Lee (*left*) is on research sabbatical at AIT for a month. He is currently working intensively with Professor Dennes Bergado and based at the Geotechnical and Geoenvironmental Engineering Program. He is on leave as Professor and Associate Dean of Geotechnical Engineering Department at the School of Civil, Urban, and Environmental Engineering of Yeungnam University in South Korea.

An alumnus of AIT, Prof. Young Huy Lee obtained his Doctor of Engineering and Master of Engineering degrees in Geotechnical Engineering in 1986 and 1983, respectively. He completed his Bachelor's degree in Civil Engineering from Dongguk University in 1978. Among other interests, he works on soil behavior modeling.
