

**Prof. Dr. Shui-Long Shen** received his BSc. in Tunneling and Underground Space Technology from Tongji University in 1986 and his MPhil in Structural Engineering from the same university in 1989. He obtained his Ph.D. in Geotechnical Engineering from Saga University, Japan, in 1998. After Dr. Shen received his PhD, he worked in the Institute of Lowland Technology (ILT) as a lecturer from 1998 to 2001. During this period Dr. Shen served as an Associate Editor of Lowland Technology International-an International Journal. From 2001 to 2003, Dr. Shen worked in National Institute for Environmental Studies in Tsukuba-the Science City of Japan. In 2003, he joined the Department of Civil Engineering (DCE) of Shanghai Jiao Tong University (SJTU) as a faculty member. He is now the Department Head of DEC. From 2005 to 2010, Dr. Shen has been keeping collaboration with other international organization, e.g. Saga University, Virginia Tech, The University of Kansas, The University of Hong Kong as a guest professor.

Dr. Shen's research interests focus on **soft ground improvement** and **land subsidence** due to withdrawal of liquid from underground. He published and/or edited five books, of which two conference proceedings published by ASCE. Dr. Shen published more than 200 technical papers in Journals and International conferences, in which about 30 papers were published in International Journals.

Dr. Shen also serves as an editorial board member of four International Journals, e.g. ***Geotextiles and Geomembranes***, Elsevier, and ***Geotechnical Engineering*** – SEAGS etc. and two domestic journals, e.g. Chinese Journal of Geotechnical Engineering.
