

GEOTECHNICAL ENGINEERING

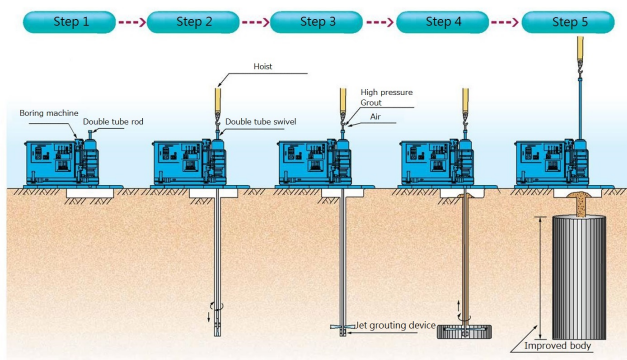

Journal of the

Sponsored by

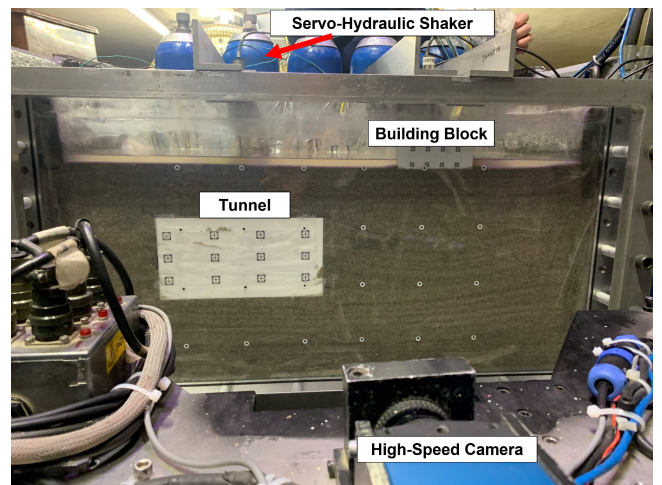

Soft Soil Improvement by Geosynthetics for Enhanced Performance of Transport Infrastructure, after Indraratna et al. (2024)

Development of the Jet Grouting Method: Evolutionary History, Mechanism Insights, Innovative Approaches, and Future Prospects, after Yamazaki et al. (2024)

Development of IoT Slope Monitoring System and its Applications for Kratu-Patong Road Landslide in Phuket, Thailand, after Jotisankasa et al. (2024)

2D Dynamic Numerical Modelling of a Tunnel – Soil – Building System Subjected to Seismic Loading, after He and Madabhushi (2024)

GEOTECHNICAL ENGINEERING

EDITOR-IN-CHIEF

Dr. Kuo Chieh Chao
Asian Institute of Technology
Thailand

ASSOCIATE EDITOR

Dr. Darren Siau Chen Chian
National University of Singapore
Singapore

EDITORIAL ADVISERS

Prof. A. S. Balasubramaniam (Australia)

Dr. Teik Aun Ooi (Malaysia)

Prof. Kwet Yew Yong (Singapore)

Dr. Andy Y.F. Leung (Hong Kong)

Prof. Widjojo A. Prakoso (Indonesia)

Mr. Junichi Yamazaki (Japan)

Ir. Liew Shaw Shong (Malaysia)

Prof. Mary Ann Q. Adajar (Philippines)

Prof. Chun Fai Leung (Singapore)

Dr. Chung Tien Chin (Taiwan)

Prof. Chih-Wei Lu (Taiwan)

Prof. Noppadol Phienwej (Thailand)

Prof. Suttisak Soralump (Thailand)

Dr. Duc Long Phung (Vietnam)

EDITORIAL REVIEWERS

Dr. Dominic Ong
Griffith University
Australia

Prof. Tatsunori Matsumoto
Kanazawa University
Japan

Dr. Elizabeth Chong
Swinburne University of Technology
Malaysia

Dr. Chan Swee Huat
Geo-Excel Consultants Sdn Bhd
Malaysia

Prof. Lee Min Lee
University of Nottingham Malaysia
Malaysia

Dr. Leonard Lim
University Malaysia Sarawak
Malaysia

Ir. Dr. Vera Loo
Curtin University
Malaysia

Ir. Chow Chee Meng
G & P Geotechnics Sdn Bhd
Malaysia

Dr. Fauzan Sahdi
University Malaysia Sarawak
Malaysia

Dr. Ng Kok Shien
Universiti Teknologi MARA
Malaysia

Dr. Gue Chang Shin
G & P Professionals Sdn Bhd
Malaysia

Dr. Choo Chung Siung
Swinburne University of Technology
Malaysia

Dr. Wong Kwong Soon
Curtin University
Malaysia

Dr. Jie-Ru Chen
National Chi Nan University
Taiwan

Dr. Shih-Hao Cheng
National Taiwan University of Science and Technology
Taiwan

Dr. Jui-Ching Chou
National Chung Hsing University
Taiwan

Prof. Ching Hung
National Cheng Kong University
Taiwan

Dr. Fuchen Teng
National Taiwan University of Science and Technology
Taiwan

Prof. Suched Likitlersuang
Chulalongkorn University
Thailand

Dr. Salisa Chaiyaput
King Mongkut's Institute of Technology Ladkrabang
Thailand

Dr. Avirut Puttiwongrak
Asian Institute of Technology
Thailand

Dr. Krit Saowaing
Asian Institute of Technology
Thailand

Dr. Phermphorn Buathong
King Mongkut's Institute of Technology Thonburi
Thailand

GEOTECHNICAL ENGINEERING

TABLE OF CONTENTS

List of Papers	Page
1. Soft Soil Improvement by Geosynthetics for Enhanced Performance of Transport Infrastructure <i>By B. Indraratna, S. Atapattu, C. Rujikiatkamjorn, J. Arivalagan, and N. Jing</i>	1-10
2. Development of the Jet Grouting Method: Evolutionary History, Mechanism Insights, Innovative Approaches, and Future Prospects <i>By J. Yamazaki, K. C. Chao, K. N. Wong, and I. M. Wang</i>	11-23
3. Evaluation of the Impact of Having of Expansive Clay Core on the Stability of an Earth Dam <i>By K. C. Chao, F. Shah, and S. Soralump</i>	24-33
4. Evaluating Bentonite Sludge Suitability for Landfills and Developing a Coefficient of Permeability Prediction Model <i>By N. Prongmanee, T. Boonyarak, S. Chea, N. Thasnanipan, Z. Z. Aye, and A. Noulmanee</i>	34-40
5. Effect of Soil Slope on Lateral Response of Piled Raft Foundations in Cohesive Soil <i>By S. Lateh, T. Chub-Uppakarn, P. Jongpradist, T. Chompoorat, S. Swasdi, and W. Srisakul</i>	41-49
6. Equivalent-Linear and Nonlinear Seismic Ground Response Analysis of Important Sites in Amaravati Capital Region, Andhra Pradesh, India <i>By R. Satyannarayana, B. G. Rajesh, and S. K. Yamsani</i>	50-64
7. 2D Dynamic Numerical Modelling of a Tunnel – Soil – Building System Subjected to Seismic Loading <i>By Z. He and S. P. G. Madabhushi</i>	65-73
8. Development of IoT Slope Monitoring System and its Applications for Kratu-Patong Road Landslide in Phuket, Thailand <i>By A. Jotisankasa, W. Praphatsorn, V. Siriyakorn, P. Sanposh, I. Janthong, Y. Tipsuwan, A. Sawangsuriya, and P. Jitareekul</i>	74-83

Cover Photographs

1. Soft Soil Improvement by Geosynthetics for Enhanced Performance of Transport Infrastructure
By B. Indraratna, S. Atapattu, C. Rujikiatkamjorn, J. Arivalagan, and N. Jing
2. Development of the Jet Grouting Method: Evolutionary History, Mechanism Insights, Innovative Approaches, and Future Prospects
By J. Yamazaki, K. C. Chao, K. N. Wong, and I. M. Wang
3. Development of IoT Slope Monitoring System and its Applications for Kratu-Patong Road Landslide in Phuket, Thailand
By A. Jotisankasa, W. Praphatsorn, V. Siriyakorn, P. Sanposh, I. Janthong, Y. Tipsuwan, A. Sawangsuriya, and P. Jitareekul
4. 2D Dynamic Numerical Modelling of a Tunnel – Soil – Building System Subjected to Seismic Loading
By Z. He and S. P. G. Madabhushi
